Just Like Family Honored with 'Business Persons of the Year' Award

City of Lebanon Association recognizes Tony and Tiffany Miller for community leadership.

Lebanon, PA – Sept. 15, 2016: Tony and Tiffany Miller, owners of Just Like Family Home Health Care Services, recently received recognition for their contributions to the Lebanon community as recipients of the “Merritt Marks Memorial Business Persons of the Year” award from the Community of Lebanon Association (CLA).

Kim Kreider-Umble of Lebanon Family Health Services, the 2015 recipient, presented the award to the Millers during the CLA’s annual gala. The award is named in honor of its first recipient, Merritt Marks, a highly regarded Lebanon County business and community leader who passed away in 2013.

In presenting the award, Kreider-Umble acknowledged the recipients’ passion about giving back to the community that has given so much to them.

“They love the amenities of a growing community where many people know each other,” she said. “To them, Lebanon is home and they couldn’t imagine having their business anywhere else.”

Just Like Family has provided in-home skilled nursing and personal care services for 35 years. The Millers have owned the firm since 2010.

“We are lifelong residents of Lebanon County and have put great importance on having a positive impact on our community,” Tony Miller said.
